How do I find jeans that fit my body type?

Because there is an overwhelming sea of denim out there, it is best to get some help in narrowing down the selections and finding the silhouette that flatters your body type. At Jeans and a Cute Top Shop, we offer personal denim fittings in a warm and friendly setting. No need for an appointment – it's just what we love to do! Our knowledgeable staff can tell you about every jean in the store, so we help take the guesswork out of which styles to try on. And, we work with you to find a style that flatters. Not everyone is looking for the skinny jean, the boyfriend or the joggng that we carry, but every gal should own one fabulous “going out” jean and a comfortable everyday jean that can still be sassy and not sloppy. We offer a wide range of prices (from \$75-\$180), and styles to fit even the “I can never find jeans that fit” ladies. On-site alterations simplify the process, as well.
